

Office Systems Technology

Poplarville and Forrest County Center

The Office Systems Technology program is designed to prepare students for office positions such as administrative assistant, receptionist, general office clerk, and word processing operator.

Office Systems Technology provides specialized training in:

Professional development	Transcription
Records management	Integrated computer applications
Database	Desktop publishing
Spreadsheet	Word Processing

The Associate in Applied Science degree is earned upon the successful completion of the Office Systems Technology curriculum. Successful completion of the first year of the Office Systems Technology curriculum entitles a student to receive an Office Assistant Certificate of Proficiency.
