

## Why College?

Research shows that education pays. Students who complete associate degrees and certificates are more likely to move into professional positions with higher earnings. Students with a solid education beyond high school can expect to earn an average of \$250,000 more than people with only a high school diploma.

## Career-Technical Scholarship

For graduates of schools having an Articulated Training Agreement with Pearl River Community College, full tuition and half tuition scholarships will be awarded to entering career-technical freshmen who meet the following qualifications:

- High school diploma
- Completed a two-year career-technical program in high school
- Enroll full time (within a year after high school graduation) in a career-technical program at PRCC
- Full tuition scholarships require overall "B" average or above in high school
- Half tuition scholarships require overall "C" average in academic courses with an "A" average in career-technical program courses in high school

## PRCC General Information:

Main Number	601-403-1000

## Early Childhood Education Technology

Poplarville Campus

Associate of Applied Science

*Where your future begins*

## About the Program

Early Childhood Education Technology is a two-year program of study designed to prepare the student for a professional career in the field of Early Childhood Education. Spanning a variety of career options, students develop competencies that enable them to teach and guide young children as related to various early childhood professions.

The Early Childhood Education Technology program includes classroom instruction and supervised laboratory/collaborative center or work experience in the field of child care. The curriculum prepares the student for employment in occupations in child care and guidance at entry, assistant, and management levels.

The Associate of Applied Science Degree will be awarded upon successful completion of the Early Childhood Education Technology curriculum.

## Employment Opportunities

- Head Start teacher
- Child Care teacher

Total.....	50
<b>TOTAL CREDITS .....</b>	<b>68</b>

## PRCC Lab School

The PRCC Lab School provides a learning environment for the your children of college students, employees, and the surrounding community. The teachers provide an environment where the children learn to be a part of a group, interact with peers, learn to cooperate, and resolve conflict with others in acceptable ways while developing trusting relationships with others.

The major objective for teachers and students is to work to ensure a brighter future for young children involved in the program by providing accessible, affordable, quality care; positive guidance; discipline through self control; and a sound foundation of basic skills.

#### Lab School Contacts:

Carrie Hales, Director      Gwen Jordan, Lead Teacher
