
CLASS PROFILE

The Construction Equipment Operations program will help develop the trainee for an entry level position in the Equipment operation field. The curriculum is a competency based course that allows the trainee to exit after they have met the training objectives.

Pearl River Community College formed partnerships with local industries to assist in development of this program. These partnerships will help in job placement after successful completion.

Curriculum

CEV 1416 Equipment Operations I
CEV 1426 Equipment Operation II
DTV 1114 Commercial Truck Driving I
DTV 1124 Commercial Truck Driving II

Why should I choose Construction Equipment Operations?

Dynamic Work Environment
Local Opportunities

Where your future begins

BENEFITS OVERVIEW

Advantages of PRCC's Construction Equipment program:

- Compressed schedule
- Employment opportunities
- Hands on training
- Safety Training
- New State of the Art Equipment
- Small class sizes
- NCCER certification

Career Opportunities in the Field

Numerous opportunities exist for CEO's in the aftermath of Katrina. As rebuilding continues, so will the need for qualified operators.

The candidate that successfully completes the training will receive a Pearl River Community College certificate.

MEET OUR STAFF

What does our staff have to say about training at PRCC? We asked, and this is what they had to say:

"As director of PRCC workforce development I enjoy watching the trainee progress through their course of study, growing on both a personal and professional level.."

-Scott, Director ATC

"I find pride in knowing that I have helped an individual improve his/her skill and provided them with lifelong career opportunities."

-Brad, CEO Instructor

"A program like this is an economic staple for the local community."

-Lindsey, Workforce & Economic Specialist
